I, § 3(b) of the California Constitution, as set forth below. Last fall, the California legislature passed, and Governor Brown enacted, SB 1421 (Skinner), which amends California Penal Code section 832.7 to provide the public a right of access to records related to investigations into investigations and discipline of peace officers for shootings and serious uses of force, as well as sustained findings of dishonesty related to the investigation, reporting, and prosecution of a crime or police misconduct. We have coordinated this request, and will share all records obtained, with this group of organizations, and further commit to making those records available to the public by posting on the Internet and other means, to help facilitate access to the records you produce. 1. Requests for Records We understand that this change in the law may result in a significant number of responsive documents, and that you may have received a number of requests for similar documents from other requestors. We have endeavored to tailor our request to a limited selection of the most important documents and most relevant timeframe for incidents. As set forth below, for purposes Requests 1 through 7, we do not seek all records relating to the underlying incident, but only a limited set of "Decisional Documents" relating to the administrative investigation of the incident. Public Records Request	<a href="#">P006490-010619</a>	1/6/2019	Darwin BondGraham	<p>Dear San Francisco Police Department Records Custodian, This is a California Public Records Act request made pursuant to the newly amended Penal Code Section 832.7 and 832.8 which states that "the public has a right to know all about serious police misconduct, as well as about officer-involved shootings and other serious uses of force." The law requires agencies to disclose personnel records, investigative records, and findings including: (1) incidents involving the discharge of a firearm at a person by a peace officer or custodial officer, (2) incidents in which the use of force by a peace officer or custodial officer against a person resulted in death, or in great bodily injury, (3) any record relating to an incident in which a sustained finding was made by any law enforcement agency or oversight agency that a peace officer or custodial officer engaged in sexual assault involving a member of the public, (4) Any record relating to an incident in which a sustained finding was made by any law enforcement agency or oversight agency of dishonesty by a peace officer or custodial officer relating to the reporting, investigation, or prosecution of a crime, or directly relating to the reporting of, or investigation of misconduct by, another peace officer or custodial officer, including, but not limited to, any sustained finding of perjury, false statements, filing false reports, destruction, falsifying, or concealing of evidence. Per the law, your agency shall release the following types of records: "all investigative reports; photographic, audio, and video evidence; transcripts or recordings of interviews; autopsy reports; all materials compiled and presented for review to the district attorney or to any person or body charged with determining whether to file criminal charges against an officer in connection with an incident, or whether the officer's action was consistent with law and agency policy for purposes of discipline or administrative action, or what discipline to impose or corrective action to take; documents setting forth findings or recommended findings; and copies of disciplinary records relating to the incident, including any letters of intent to impose discipline, any documents reflecting modifications of discipline due to the Skelly or grievance process, and letters indicating final imposition of discipline or other documentation reflecting implementation of corrective action." Pursuant to the newly amended law, your office shall disclose records maintained as part of its Brady list and Brady disclosure materials, which are maintained by law enforcement agencies and district attorneys in compliance with Brady v. Maryland (373 U.S. 83) and California Evidence Code Sections 1043 to 1047. SB 1421 removed the confidentiality classification for police personnel files contained in Penal Code Section 832.7 and 832.8 for all records involving an officer-involved shooting, uses of force resulting in great bodily harm, and sustained complaints of sexual assault and dishonesty. As a result, a Pitchess motion and judicial in camera review, as described in California Evidence Code Sections 1043 to 1047, is no longer required to disclose portions of a police officer's personnel file. Additionally, Brady lists maintained by police departments and prosecutors are no longer confidential because they are records of sustained police officer misconduct matching the types of police misconduct cases which SB 1421 now places into the public record. Given the above facts, please provide me with the following public records: 1. A complete copy of any and all lists, databases, spreadsheets, files, catalogues, or other types of records which identify peace officers who are on a "Brady list." Please include all non-exempt portions of this record, including the names of officer, descriptio</p>

Walter Ware: Pursuant to California Inspection of Public Records Law § 6250 to § 6277, and the newly enacted SB-1421 as revisions to Penal Code §832.7 , I write to request access to and a copy of: All documents related to the various trials of *OFFICER MARC ANDAYA* and his 1) use of force, 2) any issues around dishonesty, 3) complaints and lawsuits brought against him as a result, and 4) any other misconduct related to his time from 1994-1997 with the San Francisco Police Department. Any documentation about this investigation that was given to the police commissioners at any meetings involving Andaya's use of force and misconduct should be turned over, including live audio testimony and recordings of the police commission meetings involving Andaya from 1996 onwards. Since you are already fulfilling a previous request for the meeting minutes those are not necessary. Thank you for your cooperating in providing those on an ongoing basis Sgt. Ware. -The records should include all information around the in-custody death of AARON WILLIAMS in June of 1996, and any other incidents of misconduct and use of force. -The records should include audio, paper, and video records. -If the records are in long term storage, I request that in accordance with Cal. Gov't Code § 6253.1 (listed below) that I be notified of the location of the records, and that they be pulled from storage to fulfill my records request. I request the above items in a digital format, preferably as a .wav file format for the audio, .pdf for the documents, and .mov for the videos. Please send these files via email or FTP upload to save time and resources. Section §832.7 A-C state that records must be released for: 1. any officer who had a "discharge of a firearm" or a "use of force" that "resulted in death, or in great bodily injury", 2. any officer involved in "sexual assault" which has been defined as "any sexual act while on duty is considered a sexual assault" as well as 3. any officer who demonstrates "dishonesty" through acts of "perjury, false statements, filing false reports, destruction, falsifying, or concealing evidence." As to type of records, §832.7 (2) states that records that "shall be released pursuant to this subdivision include all investigative reports; photographic, audio, and video evidence; transcripts or recordings of interviews; autopsy reports; all materials compiled and presented for review to the district attorney or to any person or body charged with determining whether to file criminal charges against an officer." Furthermore, "documents setting forth findings or recommended findings; and copies of disciplinary records relating to the incident, including any letters of intent to impose discipline, any documents reflecting modifications of discipline due to the Skelly or grievance process, and letters indicating final imposition of discipline or other documentation reflecting implementation of corrective action." I also draw your attention to Cal. Gov't Code § 6253.1, which requires a public agency to assist the public in making a focused and effective request by: 1) identifying records and information responsive to the request, 2) describing the information technology and physical location in which the records exist, and 3) providing suggestions for overcoming any practical basis for denying access to the records or information sought. Please provide your full compliance with § 6253.1 should the need arise. In accordance with Cal. Gov't Code § 6253(a) the agency always bears the burden of justifying non-disclosure, therefore if you determine that any fields are exempt from disclosure, please identify those fields, specify the statutes which exempt them, and release all other segregable parts. Waaland: Thank you for speaking on December 11, 2018 to Mr. John Crew who has been assisting our organizations in this matter. Per your suggestion to Mr. Crew, please consider this a new request pursuant to both the California Public Records Act and the San Francisco Sunshine Ordinance for a copy of the above-referenced document we first requested three months ago (reference #P005635-101218). We hope that this letter will either lead the San Francisco Police Department ("SFPD") to provide: (a) the requested document in full; (b) the document with any necessary redactions; and/or, (c) a much more clear explanation about which exemption or exemptions to disclosure the SFPD believes it may lawfully assert to refuse disclosure or make redactions, along with an adequate explanation for why the particular required burden to justify these exemptions has been met in these specific circumstances. The explanations we have been provided thus far have been confusing, inadequate and inconsistent with the plain language of state and local open records laws. We appreciate that the City Attorney's Office drafted the SFPD's prior replies and that you were unable to provide further explanation. We hope that, by following your suggestion to submit this new request and detail herein our questions and confusion, you can more readily discuss them with that office, we can resolve this matter without the need to proceed with an administrative complaint or litigation. Our organizations have been involved in matters involving the SFPD's participation in the Federal Bureau of Investigation's ("FBI") Joint Terrorism Task Force ("JTTF") for many years — including asserting our rights under state and local public records laws to information the FBI has provided to the SFPD about its participation in the JTTF. Prior SFPD administrations have initially declined to provide similar FBI documents in the past but, in each case, with the assistance of the City Attorney's Office the requested information was provided without unnecessary litigation or use of the administrative complaint process. We hope that will prove to be the case once again. THE REQUESTED DOCUMENT Per our letter of October 12, 2018 (enclosed), we are again requesting a copy of the document described by FBI Assistant Special Agent in Charge ("ASAC") Craig Fair in his July 6, 2017, email to SFPD Chief Scott as a "white paper which provides clarification and understanding of the JTTF-SFPD MOU." The document was referred to in the subject line of that email as "FBI white paper on section 8.10" and was labelled as the "SFPD JTTF.pdf" attachment. STATE AND LOCAL LAW We are once again requesting this document under both the state and local open records laws. They are not identical. The San Francisco Sunshine Ordinance was enacted specifically to provide greater access to information than required under state law and narrows the circumstances wherein certain discretionary exemptions under the Public Records Act may be exercised to withhold or redact requested documents. As we partially explained in our October 12, 2018 letter, those greater local rights of access apply to the particular record we are requesting yet the SFPD's prior responses relied solely on state law exemptions. If the requested document is withheld or partially redacted, we ask that you please address the SFPD's broader disclosure obligations under San Francisco law (as detailed below).
